

Two years of Erasmus plus projects

"We are happy and proud to be included in the Erasmus plus projects for two years.

Experience and knowledge which our students, and our teachers, gain in this manner is a completely modern method of connecting theory and practice, as well as perfecting linguistic knowledge and communication skills.

We can rightly assert that our school is in accordance with modern educational trends, both when it comes to the education of our students and the professional development of our teachers."

Vesna Brkljačić,
headmistress
